

This technical drawing illustrates a proposed road layout for 'Karttalehti 3'. The road is depicted as a winding path, primarily defined by a solid red line, with a dashed red line indicating an alternative or boundary line. The layout is overlaid on a detailed topographic map showing terrain contours, existing buildings, and other infrastructure. Key features include:

- Stationing and Labels:** Numerous numerical labels (e.g., 601, 605, 611, 616, 630, 631, 640, 642, 644, 678, 685, 690, 697) are placed along the road, often accompanied by codes like 'AR', 'VL', or 'AO'. These likely represent specific points of interest or stationing markers.
- Topographic Details:** The background map shows contour lines indicating elevation changes, as well as existing structures and vegetation.
- Alignment and Geometry:** The red lines define the proposed road's alignment, showing how it navigates the terrain and existing built-up areas.
